SKILLS

- Languages:** C++, JavaScript, C, Java
- Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- Tools/Platforms:** MongoDB, MySQL
- Soft Skills:** Problem-Solving, Adaptability, Leadership

PROJECTS

- Movie Ticket Booking System | [Github](#)** Jul 2025 – Nov 2025
- Developed an online movie ticket booking platform using HTML, CSS, JavaScript, PHP, and MySQL, integrating secure authentication and real-time seat booking features.
 - Implemented secure user authentication, seat-selection logic, and real-time availability updates, enhancing functionality and reliability
 - Improved user experience by incorporating clean UI/UX design principles, optimizing performance, and ensuring seamless interaction across devices
- Math Bot | [Github](#)** Jul 2025 – Nov 2025
- Engineered an AI-based Math Bot using C++, implementing expression parsing and algorithmic problem-solving techniques to handle arithmetic and algebraic computations.
 - Created an intuitive chat-based interface that enhances accessibility and enables real-time problem-solving for students and learners
 - Integrated machine learning and NLP techniques to interpret queries, process mathematical expressions, and generate step-by-step solutions

TRAINING

- Centre for Professional Enhancement | [Certificate](#)** Jun 2025 – Jul 2025
- Engineered a real-time system monitoring module in C/C++, applying Data Structures and Algorithms to enable water-flow visualization and automated leakage/blockage detection.
 - Applied **core** Data Structures and Algorithms including Dijkstra's algorithm and BFS/DFS to analyze pipeline networks, optimize path traversal, and detect anomalies
 - Optimized data retrieval and traversal logic using efficient algorithmic techniques, reducing system response time by 30%

CERTIFICATES

- Bits and Bytes | [Coursera](#) May 2024
- Data Structure with Java | [Apna College](#) Sept 2024
- C Programming Bootcamp | [Udemy](#) Feb 2024

ACHIEVEMENTS

- Built and deployed 5+ projects using HTML, CSS, React, PHP, and Tailwind CSS, focusing on responsive design and clean UI development
- Strengthened Data Structures and Algorithms skills by solving 100+ problems on GeeksforGeeks, LeetCode and LPU using C++ and Java, focusing on core problem-solving concepts.
- Shortlisted to participate in Hack Chrono (Technicia'25), Chandigarh University, recognizing problem-solving ability and practical development skills

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology, Computer Science and Engineering | CGPA: 6.24
Aug 2023 – Present
- Shanti Mission Academy** Saharsa, Bihar
Intermediate | Percentage: 71.2
Mar 2020 – May 2022
- Carmel School** Deoghar, Jharkhand
Matriculation | Percentage: 74.8
Mar 2019 – May 2020
